Interlusa[®]

Iluminação e decoração

Fundada em maio de 1967 por Manfred Horst Müller, irrefutável líder e visionário, a Interlusa ergueu-se com uma política direcionada ao trabalho das matérias primas no decorrer dos anos destacou-se pelo seu trabalho honesto e pelos seus valores, sendo até hoje uma empresa familiar. Dedicada à importação e revenda de metais, componentes de iluminação e luminárias, além do mercado interno, também se dedica à exportação dos seus produtos para o mercado espanhol e para os PALOPs. A Interlusa adapta-se constantemente às necessidades do mercado, oferecendo aos seus clientes as melhores soluções escolhendo assim sempre os melhores parceiros para a garantia da melhor qualidade.

A Interlusa destaca-se pela qualidade dos seus materiais e pela diversidade das suas linhas, conjugando o moderno com o clássico. Apostamos em lâmpadas com tecnologia de ponta, garantindo ao cliente a melhor relação preço/qualidade. Oferecemos uma gama alargada de componentes, destinados principalmente ao fabrico de luminárias, bem como material eléctrico, sensores, tomadas, extensões, etc. Fornecemos latão, cobre, zinco, níquel e alumínio em semimanufacturados, tais como tubos, cavilhas, chapas, etc., e produtos para galvanoplastia tais como ânodos e arames de cobre.

LUMIT[®]

LUMIT nasce da experiência e do compromisso da Interlusa com a iluminação. Tornou-se numa referência no domínio da iluminação técnica e decorativa, com mais de 8000 produtos ativos, distribuídos em Portugal, Espanha, França, Reino Unido, Brasil e Angola. Desde o começo, manteve o compromisso com a qualidade e a garantia, típicas de uma marca de prestígio e bem posicionada.

TECHTOUCH

A TECHTOUCH é uma empresa de referência no setor de iluminação, dedicada à produção, comercialização e distribuição de uma ampla gama de produtos de iluminação de alta qualidade. Com um histórico de mais de 20 anos, combina avanços tecnológicos com o conhecimento técnico para se consolidar como um fornecedor profissional e de confiança no mercado.

Dedica-se a oferecer soluções de iluminação que respondem às necessidades de clientes internacionais, alcançando uma vasta experiência e profundo conhecimento do setor.

Com uma visão estratégica do mercado global, estão empenhados em compreender as necessidades locais e antecipar as tendências de inovação a nível mundial.

Graças à iniciativa do Sr. Fumagalli Giancarlo, em 1973 nasceu em Varese (norte da Itália) uma empresa individual chamada “La Bottega dei Maestri Forgiatori”, especializada no trabalho artístico manual de iluminação interior em ferro forjado.

Uma intuição do Sr. Fumagalli levou a empresa a uma evolução, criando um sistema inovador de produção de iluminação exterior, consistindo em tubos de aço galvanizado cobertos por material de resina. Após alguns anos de experiência e de instalação de máquina adequadas, o produto começou a ser apreciado em todo o mundo.

A família Fumagalli decidiu transformar a empresa individual numa sociedade por quotas, continuando a fabricação de luminárias para exterior em “material composto”. A gama de artigos aumentou graças à criação de muitos novos modelos e a capacidade de produção foi multiplicada pelo uso de máquinas informatizadas. A recente instalação na nova sede da empresa fez definitivamente da Fumagalli S.r.l. uma empresa líder mundial na fabricação de iluminação exterior em material de resina.
